FEATURES

Never miss a caller to your door with the ERA Smart Video Doorbell, a wired doorbell that has superb motion detection capabilities as well as two way talk and caller logging.

- **Answer your door remotely using a smartphone.** You can now answer the door from wherever you are – once the doorbell is pressed, your phone rings, allowing you to view the door caller and converse with them.
- **Security on your doorstep.** Always know who has been to your door, whether they rang the bell or just got close to it with motion detection.
- **Audio and visual you will love.** Superb sound quality and HD video, you can talk with ease to people at your door and what's more, they will hear you perfectly too.
- **Easy to use.** Set up your doorbell using the ERA Protect app. It's intuitive functionality will allow you to tailor the settings to your own needs.
- **Secure as can be.** With encrypted 128 bit SSL security, clips will be safely stored for 30 days*
*with ERA subscription.

KEY FEATURES

-  Works with your smartphone via WiFi
-  See, hear and speak to your visitor with two-way talk
-  Real-time video and night vision for live viewing capability day or night
-  Sophisticated motion sensing technology that triggers recording and instant alerts
-  Video cloud recording and activity logs to review motion events*
-  Cables protected against weather damage or tampering
-  Can be used standalone or with the ERA Protect alarm and cameras. The ERA Protect alarm hub has doorbell chime functionality built-in so you can hear the doorbell ring within the home
